

MEET APRIL HOWLAND, *ARTIST IN RESIDENCE*

April Howland has been a professional artist for over 20 year.

As an Arizona native she is inspired by nature and animals, April's primary focus remains steady in her thriving wildlife series and domestic animal portrait business. As she travels the globe from Alaska to Africa for inspiration, April's eye for composition and design combined with her love of color enables her to create rich and unique art pieces. Her one of a kind style is a successful blend of contemporary and realism. She uses a variety of materials to accomplish her works but her methodology remains consistent. "To me, each piece of art is a beautiful learning experience with amazing shapes and tones working together to tell a story."

April also uses her art to inspire others to care for the natural world from building school kitchens in Africa, dehorning rhinos with conservation teams, and co-creator of "Art on the Wildside" the art program at the Phoenix Zoo. Ask her more about her philanthropy and why it is so important to her.

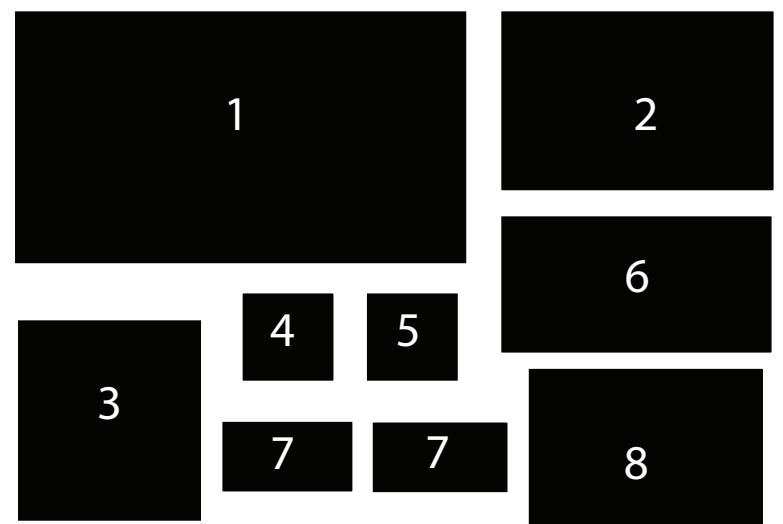

April's term will begin on Friday, January 13th and run through March 31st, 2023.

IT'S A WILD WORLD

"Our wildlife are at risk of disappearing forever, a mass-extinction event that scientists say would be on par with the devastation brought by the asteroid that wiped out most dinosaurs. My work is a celebration and a documentation of wildlife around the world in hopes to further the conversation around animal conservation."

ON DISPLAY:

#	<u>TITLE</u>	<u>PRICE</u>	<u>SIZE</u>
